THE NORTH AMERICAN MAN/BOY LOVE ASSOCIATION

Dear Friend,

You have made a wise choice. The North American Man/Boy Love Association is working to change society's attitudes about man/boy love through publications, educational and political activities, and membership conferences.

The *NAMBLA Bulletin*, published quarterly, is a unique source of information and support for anyone concerned with personal freedom and the rights of young people. The *NAMBLA Topics* series allows us to focus on issues in depth. We also endeavor to provide additional sources of information to our members whenever possible.

A book and magazine distribution service available to NAMBLA members offers a variety of publications concerning man/boy love in particular and social freedom in general.

Membership in NAMBLA is entirely legal and our records are kept strictly confidential. We do not publish or distribute anything that may not be owned or mailed in the United States.

You are not alone! You can help in the struggle for our common liberation by joining NAMBLA today!
