

JOIN NAMBLA

THE NORTH AMERICAN MAN/BOY LOVE ASSOCIATION

Dear Friend,

You have made a wise choice. The North American Man/Boy Love Association is working to improve public understanding of man/boy love by providing reliable information and support for anyone concerned with personal freedom and the rights of young people, through our web site, publications, educational and political activities, and membership conferences.

We welcome everyone who supports man/boy love in particular and social freedom in general. Membership in NAMBLA is entirely legal and our records are kept strictly confidential. We do not publish or distribute anything that may not be owned or mailed in the United States.

You are not alone! You can help in the struggle for our common liberation by joining NAMBLA today!
